IT Solutions Group is the cooperative effort of leading IT, Web, and Software Application providers who recognise that businesses don't want to sew together multiple solutions from different providers, and rarely have the internal resources to evaluate, purchase, and integrate a confusing array of disparate technologies.

We provide end-to-end managed IT services so that you can focus on running your business. And to help you do so effectively and efficiently, we also provide personalised Business and Technology Consulting.

We provide a fully-managed web/IT environment, covering every aspect of your needs:

- Traditional IT services such as PC setup, networking, spam filtering and security.
- Web development services to get your web presence set up and easily manageable.
- Application hosting, such as Marketing Campaign Management, Customer Relationship Management, Secure Extranets, and Online Catalogues, to help you conduct business better, smarter, and faster.

We also provide a Help Desk solution to reduce your own customer support costs.

We have a high calibre team with many years of experience in differing industries.
